EDUCATION

Indian Institute of Business Management
Bachelor of Computer Applications – CGPA: 8.49/10

Patna, India
2022 – 2025

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Frontend: React.js, Tailwind CSS, HTML + CSS
Backend: Node.js, Express.js, Java Spring Boot, RESTful APIs, JWT Authentication
Databases: MongoDB, PostgreSQL, Redis
Cloud & DevOps: AWS (EC2, S3), Git, GitHub, Linux, Cloudinary

PROJECTS

- Expense Management System** | *Java, React.js, PostgreSQL, MongoDB, Redis* Jun 2026 – Present
- Developing a full-stack expense management platform that imports PDF, CSV, and Excel bank statements and automatically extracts financial transactions.
 - Implemented fingerprint-based duplicate detection and merchant-rule categorization to prevent duplicate imports and automate expense classification.
 - Designed a hybrid persistence layer using PostgreSQL for transactional data, MongoDB for import logs and categorization rules, and Redis for dashboard caching.
 - Built budgeting, savings goals, PDF report generation, backup and restore functionality, and JWT-secured REST APIs for secure multi-account financial management.
- Full-Stack Blog Platform** | *React, Node.js, Express, MongoDB, Cloudinary, Mailgun* Jul 2025 – Aug 2025
- Built a full-stack blogging platform with JWT authentication, role-based access control, and email verification using Mailgun.
 - Integrated Markdown editing with LaTeX rendering, image uploads and cropping, and Cloudinary for secure media storage.
 - Implemented nested comments, user mentions, likes, and polling-based real-time notifications.
 - Optimized frontend performance using React.memo, debounced API requests, AbortController cancellation, and response caching.

CERTIFICATIONS

- ▷ AWS Academy Graduate – Cloud Foundations
- ▷ JavaScript Essentials – Cisco
